

## Palmary Solutions - the one-stop Palm solutions provider for all enterprises

### OVERVIEW

Palmary Solutions is a provider of efficient mobile technology solutions. We provide a wide-range of professional services, focusing on:

- Personal Digital Assistant (PDA) application development
- Solutions platform development
- PDA solutions consultation

To compliment these professional services, we supply software products, maintenance, training and support.

### SERVICES

Our profile consists of an array of I.T. services to build comprehensive end-to-end solutions. Our craftsmanship enables our client to address the ever changing and agility of their business operations.

#### *Business Solutions*

We offers a full range of innovative integrated business solutions designed to meet the specific needs of industries worldwide. Our leading edge tailor-made software solutions are designed to expand the market's ability. We translates these advanced technologies into value for our customers through our professional solutions and services businesses worldwide.

#### *Mobile Solutions*

Customer Relationship Management : "Your customers just got closer!" Using a Palm PDA, CRM data can be accessed, edited and matched up at any time, from anywhere. One major advantage is that data synchronisation is the only process performed online. Data are read and edited offline. Quick and easy implementation based on predefined components means the software can be adapted easily to meet other needs and sector-specific requirements. Existing business and sales processes can therefore be optimised for the field with tailor-made CRM solutions.

**Mobile Force Automation** : Mobile force automation solutions are especially designed for Palm Computing Platform. Our solutions are designed to support the special requirement of the mobile force. Our mission is to assist customer empowering their mobile workers engaged in sales, marketing, survey, and customer service to maximize operating efficiencies, increase revenue and sustain competitive advantages. We provides solutions to a wide spectrum of vertical industries such as Banking, Distribution, Food and Beverage Industry, Medical, Property developer, Retail and Business Services as well as mainstream mobile technology users. The applications can be seamlessly integrated with most of the existing database applications (Microsoft Access, Lotus Notes Database, IBM DB2, Sybase, Oracle, Dbase, etc).

### ***Technical Support Services***

Our Palm technical services covers hardware, software, and network services and support, as well as offering help for global deployment and integration. The wide range of proactive services is designed to reduce unplanned downtime, improve overall system supportability and keep your IT environment on track and performing at the highest level.

### ***Training Solutions***

Our training solutions are focused on assisting professionals to maximize their investment. We offer a range of Palm training options and customized solutions, aimed at users of all levels. Our training solutions experts will deliver practical and effective learning materials and options, allowing you the opportunity to gain the most from the courses.
